Kronosport manufactures lightweight electric utility vehicles (EUVs) for use in urban centers, gated communities, universities, airports, parks, zoos, convention centers, shopping malls, stadiums and other similar venues. The EUVs are powered by a maintenance-free 36 volt electric drive system and they come equipped with standard safety features such as front and rear lights, turn signals, hydraulic disc brakes, safety restraints, and an on-board charger which can be plugged into any outlet. The vehicle has a range of approximately 25 miles at 12 mph. Kronosport offers easily removable battery boxes and additional batteries so that you don't have to worry about any down time. Additionally, the colorful fiberglass bodies (Van and Pedicab) are ideal for graphics and wraps which can be used to promote your organization or department.
